

BTMO Transportation Update

Submit a Photo, Get a Chance to Win a Kindle!

Image Source: BTMO

BTMO is hosting a virtual campaign with Go Glendale and Warner Connects to highlight the beauty of transit with a **transit-friendly destination guide**.

Participate by April 30 for the chance to win some awesome gifts, including a **Kindle**, \$30-\$50 **gift cards**, a **backpack cooler**, or a **bike kit** gift basket.

- 1. Take an image on transit, at a station, or a transit-friendly destination.
- 2. Upload it to our online form.
- 3. Stay tuned for an interactive map with the locations and images!

"A new bill seeks to address lagging transit ridership and the state's housing shortage in one fell swoop.

SB79 would upzone thousands of parcels throughout California, allowing for more dense housing near major transit centers.

"It's hard to think of a better place to build multi-unit apartment buildings, townhomes and condos, than around the highest quality public transportation," said California Sen. Scott Wiener, who introduced the bill.

Los Angeles has made major strides in expanding its rail network, he said, but ridership numbers are lagging."

Jeanette Marantos | LA Times

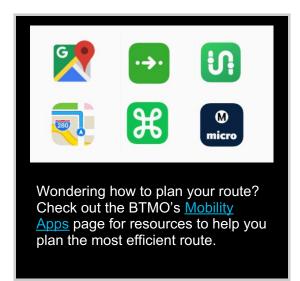

"Adding soil is a big deal because it means we're nearing the end of Stage 1, when the top is seeded and then planted with native shrubs and perennials, work that should be completed this summer, said Robert Rock, chief executive of Chicago-based Rock Design Associates and the landscape architect overseeing the project.

But we're still a ways from completion, now scheduled for the end of 2026, about a year later than initially planned due to delays from the heavy rains in 2022 and 2023.

Stage 2, the final phase, will connect the structure to the hills at the north and south so that wildlife, like L.A.'s famous, ill-fated cougar, P-22, can use it. That stage will start with burying utility lines along a section of Agoura Road, south of the crossing, and moving water lines for recycled water used for irrigation."
