(Validated Parking in Covered Lot G)

SCHEDULE of EVENTS
6:00 PM: Check-In
6:30 PM: Presentations and Discussion

Open House Until 8:00 PM

Refreshments Will Be Served

Hollywood Burbank Airport (BUR) invites you to the kickoff of their green initiatives on September 9, at 6:30 PM in the Hollywood Burbank Airport Skyroom.

BUR is working to partner with the South Coast Air Quality Management District (SCAQMD) to implement robust voluntary measures that improve air quality and reduce greenhouse gas (GHG) emissions in the Southern California basin.

BUR has been working with other airports, airlines, environmental advocates and community stakeholders to develop an Air Quality Improvement Plan (AQIP). In the City of Burbank, these programs will reduce vehicle trips, support innovative technological advancements, increase the use of innovative alternative fuels, and encourage the use of near zero-emission vehicles at BUR.

Moderated by:

LISA TRIFILETTI
Trifiletti Consulting
